Video inspection system HD SMV-1.

SWISS METROLOGIE

| MSA | Stand and screen |
|------------|---|
| 14.160 (1) | Stand with geared column MSA14.471 Screen 10" |
| 14.161 (2) | Stand with detached arm MSA14.472 Screen 10" |
| 14.162 | Stand with extension arms MSA14.427 Screen 10" |

The SMV-1 HD video inspection system combines the latest high-definition video technology with the best macro lens providing an exceptionally fluid image quality.

- The integrated 10" flat screen improves image quality and operator comfort
- The dome lighting technique by reverberation enables an optimised surface inspection even on polished and glazed parts
- The macro zoom 10x (13-130 mm) ensures intuitive and fast ease of use.

Key features :

- HD Camera 720P with an integrated 10" flat screen
- Image is captured directly onto the SD memory card
- Remote screen control with a pointing sight
- Indirect LED lighting dimmer by reverberation
- Optical zoom Computar 10x (13-130 mm) providing excellent quality and a working distance from 152 mm to 450 mm
- Zoom magnification from 3x up to 55x, with a wide field of view.

Technical characteristics :

- Digital sensor CMOS 1/2.5"
- Resolution 1280 x 800 @ 60 fps (24 bits), 16.10 aspect ratio
- 2 megapixels
- Individual adjustment of the screen colours : Red, Green and Blue
- Automatic or manual white balance
- Automatic or manual image contrast.

Items included in the delivery, in addition to the following compositions :

- MSA14.150-E : Dome lighting with LED + lighting intensity dimmer
- MSA14.151-P : Protection cover in semi-transparent PVC-Foil
- MSA14.150-SD : - SD memory card 8 GB.

The SMV-2 FULL HD video inspection system is an intuitive inspection device with an exceptional image quality and fluidity on any HDMI-linked screen.

- New Full HD 13.3" flat screen for unrivalled image quality and operator comfort
- Recording pictures to a USB stick.

Key features :

- Full HD camera 1080P-HDMI controlled by a wireless mouse
- LED incident lighting with an intensity dimmer
- Optical zoom Computar 10x (13-130 mm) provides excellent quality and a working distance from 152 mm to 450 mm
- Zoom magnification from 3x up to 50x, with a wide field of view.

Technical characteristics :

- Digital sensor CMOS 1/2" Backlit
- Full HD resolution 1920 x 1080 @ 60 fps
- 5 megapixels
- Individual adjustment of the screen colours : Red, Green and Blue
- Automatic or manual white balance
- Automatic or manual image contrast
- HDMI connection.

Items included in the delivery, in addition to the following compositions :

- MSA14.150-E : Dome lighting with LED + lighting intensity dimmer
- MSA14.151-P : Protection cover in semi-transparent PVC-Foil
- DOCPUB.USBKEY : USB key 4 Gb with lanyard 80 cm
- MSA14.150-S : Wireless mouse.

| 14.180 (2)** | Stand with geared column MSA14.400 (black base) Screen 23.8" |

The SMV-3 video inspection system "Focus Stacking" is the latest intuitive solution from HOROTEC SA.

The "Focus Stacking" is a process in which several photos with different focus are merged to obtain an image with a large depth of field.

Main features :

- "Focus Stacking" function operational without a PC
- Full HD-5 MP camera, 1920 x 1080P @60 fps
- Full HD 13.3" flat screen
- Image storage on Ethernet network or USB stick
- New ergonomic stand with integrated wiring
- Transmitted and incident lighting as standard equipment
- Connection type : HDMI
- Zoom magnification from 3x up to 55x, with a wide field of view (from 30x up to 200x for MSA14.180).

** Graphic measurement software, PC-free, with automatic edge detection function

MSA14.170 : Without measuring functions / Without measuring table

MSA14.171 : With measuring functions / Without measuring table

MSA14.180 : With measuring functions / With measuring table

Main measurement functions of the camera MSA14.153-C :

- Calibration according to the type of measurement : linear or diameter.
- Measurement types :
 - Distance between 2 points, 1 line/1 point and 2 lines
 - Angular between 2 lines - Circle, arc of circle
 - Distance between 1 point/1 circle, 1 line/1 circle and 2 circle centers
 - Concentricity - Rectangle, polygon.
- Capture point :
 - Automatic or manual edge detection function.

Items included in the delivery, in addition to the following compositions :

** - MSA15.614 : Measuring table "X-Y" with rotating circular plate in glass (delivered without stops)

- MSA14.150-E : Dome lighting with LED + lighting intensity dimmer
- MSA14.151-P : Protection cover in semi-transparent PVC-Foil
- DOCPUB.USBKEY : USB key 4 Gb with lanyard 80 cm
- MSA14.150-S : Wireless mouse.

Video inspection system FULL HD SMV-B.

SWISS METROLOGIE

MSA

14.154

The video inspection system SMV-B FULL HD is an intuitive and compact inspection device, capable of filming a meticulous operation live, thanks to a large field depth and an exceptional image fluidity on any screen with an HDMI connection.

- Live viewing in FULL HD quality on any screen with an HDMI connection ; video projector, TV, PC monitor, etc.
- Possibility of streaming via an optional PC converter
- Recording of films and photos on SD card or USB key
- Viewing captured photos directly on the screen.

Key features :

- Full HD 1080P-HDMI camera controlled by wireless mouse
- Optical Zoom Macro 10x (13-130mm) providing an excellent quality and a working distance from 160 mm to 500 mm.

Technical characteristics :

- Digital sensor CMOS 1/3" colour
- Full HD resolution 1920 x 1080 @ 30 fps (12bits), 16.10 aspect ratio
- 2 Megapixels
- Adjustment of the screen colours : Blue - Red - Green
- Automatic or manual white balance
- Automatic or manual image contrast
- Backup : 8 GB SD card or USB stick (not included)
- Connection type : HDMI.

Items included in the delivery :

- 1 FULL HD camera
- 1 HDMI cable 70 cm
- 1 wireless mouse
- 1 Optical zoom Macro 10x (13-130 mm)
- 1 SD memory card
- 1 Z-tripod 200 mm.

Optional :

| MSA | Item |
|----------|---|
| 14.151-U | (1) HDMI-USB signal converter for PC connection |

Connect your HOROTEC inspection system (SMV-B / SMV-2 / SMV-3) with the HDMI/USB 3.0 signal converter (MSA14.151-U) and share your video inspection system camera live using the following video conferencing applications :

Stands.

"PREMIUM" series. Stereoscopic binocular and trinocular microscopes.

A new design more ergonomic - Compact and lightweight - Cleaner image in the periphery - Large coverage of magnification - Long working distance.

Main features :

- Powerful and advanced optical system for a better rendering of stereoscopic image
- Working distance of 104 mm, can be extended from 26 mm to 200 mm with optional lenses
- Magnification domain from 2x to 180x using optional objectives and eyepieces.

F250 V1 amp glass fuse for stereoscopic microscopes SWISSMETROLOGIE® "PREMIUM" and "SILVER".
Set of 10 pieces.

"SILVER" series. Stereoscopic binocular microscopes for demanding professionals.
Modern design, more ergonomic - Compact and complete - Variable magnifications Zoom - 360° optical head - LED transmitted lighting.

Main features :

- **Powerful stereoscopic optical system for demanding industrial applications**
- **Working distance of 100 mm, can be extended up to 170 mm with the optional lenses and the stand with detached arm**
- **Magnification domain variable by zoom from 6.7x to 45x zoom and expandable up to 135x using optional lenses and eyepieces.**

Dual viewing stereoscopic binocular microscopes, without lighting.

- Equipped with a variable magnification Zoom from 8x to 50x (with eyepieces WF10x/22)
- Two binocular heads with individual adjustment of the interpupillary distance from 54 to 76 mm
- Adjustment of dioptres : +/-5.0.

Items included in the standard equipment :

- Cast iron large base (400 x 400 mm), rectified column length 450 mm and fine focusing drive
- Modular design discussion tube
- Two binocular heads with individual adjustment of the interpupillary distance and dioptre correction
- Two pairs of eyepieces WF 10x with eyeshades
- Indicator with adjustable luminous arrow
- Protection cover
- Glas plate 255 x 255 mm.

Lighting : see pages 14-17...14-20.

Lighting for binocular and trinocular microscopes.

| MSA | Kg |
|----------|-------|
| 14.150-G | 0.325 |

LED transmitted lighting with dimmer.
External Ø 98 mm.

| MSA | Size | Kg |
|----------|------------------------------|-------|
| 14.150-T | 115 x 115 x 15 mm Ø 95 mm | 0.440 |

Black aluminium table support for transmitted lighting MSA14.150-G.
Delivered without lighting.

| MSA | Voltage | Kg |
|------------|---------|-------|
| 14.313 | 220 V | 0.700 |
| 14.313-110 | 110 V | 0.700 |

Neon incident lighting fluorescent ring.
- 85 kHz
- Power 8 W
- Colour temperature 6000 K.
Maximum internal Ø 62 mm. External Ø 98 mm.
Delivered with additional neon.

| MSA | LED | Voltage | Kg |
|--------|-----|------------|-------|
| 14.312 | 60 | 90 - 260 V | 0.360 |

Incident illumination ring of white LED.
- Dimmable from 0 to 100%
- Working distance 80...130 mm
- Colour temperature 6000 K
- Brightness 1400 lux at 100 mm
- LED lifetime up to 20'000 hours.
Maximum internal Ø 44.50 mm. External Ø 85 mm.

| MSA | LED | Voltage | Kg |
|--------|-----|------------|-------|
| 14.311 | 144 | 90 - 250 V | 0.445 |

Incident illumination LED ring divided in 4 segments.
 - Dimmable from 0 to 100 %
 - Colour temperature 6500 K
 - Emits 20000 lux at 100 mm
 - Usable for working distances from 50 to 200 mm
 - LED lifetime up to 10'000 hours.
Maximum internal Ø 61 mm. External Ø 98 mm.

ANTIREFLECTING

| MSA | LED | Voltage | Kg |
|--------------|-----|------------|-------|
| 14.317 | 164 | 90 - 240 V | 0.463 |
| 14.317-5000K | 164 | 90 - 240 V | 0.463 |

Incident illumination LED ring distributed over 3 rings.
 - Dimmable from 0 to 100 %
 - Colour temperature : 6500K (MSA14.317) / 5000 K (MSA14.317-5000K)
 - Emits 33'500 lux at 50 mm
 - Double diffuser.
Maximum internal Ø 63 mm. External Ø 105 mm.

| MSA | LED | Voltage | Kg |
|--------|-----|------------|-------|
| 14.315 | 8 | 95 - 265 V | 0.850 |

Polarizing incident illumination ring of white LED with high brightness.
 - 1 W per LED
 - Dimmable from 0 to 100%
 - Colour temperature 6000 to 7000 K
 - Brightness 1800 lux.
Maximum internal Ø 62 mm. External Ø 90 mm.

| MSA | Voltage | Kg |
|--------|-------------|-------|
| 14.349 | 110 - 240 V | 2.300 |

Multifunctional dual LED light source equipped with :
 - 2 flexible Gooseneck arms with a 1 W LED mounted at each end
 - 1 condenser lens
 - 1 dimmer switch.
 Each LED color temperature is 6500 K and emits 6500 lux at 100 mm.
 Network auto switching 110/240 V.
*Size : 120 x 160 x 75 mm.
 Length of Gooseneck arms : 440 mm (LED included).*

| MSA | Voltage | Kg |
|--------|------------|-------|
| 14.354 | 90 - 240 V | 1.500 |

Multifunctional dual LED light source equipped with :
 - 2 flexible Gooseneck arms with a 3 W LED mounted at each end
 - 1 dimmer switch.
 Each LED colour temperature is 6500 K and emits 12'000 lux at 100 mm.

| MSA | LED | Voltage | Kg |
|----------|-----|-------------|-------|
| 14.150-E | 120 | 110 - 240 V | 1.205 |

Dome lighting with LED.
 - Dimmable from 0 to 100 %
 - Colour temperature 6500 K
 - Brightness 2000 lux.
 Maximum internal Ø 66 mm. External Ø 160 mm. Height 86 mm.

| MSA | Voltage |
|--------|---------|
| 14.423 | 220 V |

System of incident illumination ring LED over three rings.
 - Diffuser and intensity dimmer of 120'000 lux at 40 mm without heat release
 - Mobile and adjustable thanks to its support, fits the stands MSA14.400, MSA14.471 and MSA14.473 of the inspection systems SMV.
 Maximum internal Ø 143 mm. External Ø 165 mm.
 (Illumination available without mobile support).

ANTIREFLECTING

LESS

| MSA | Voltage |
|--------|---------|
| 14.319 | 220 V |

Fibre optic lighting kit, incident BF and grazing DF. 2 lighting systems in 1 (bright field and dark field). Easy to set up and assemble, this lighting system fits all our types of microscopes of the PREMIUM and SILVER ranges, as well as all our video inspection systems SMV-1, SMV-2, SMV-3, etc.

The "ShadowLESS" concept combines high uniformity and high directional light in a unique way. These properties allow an unprecedented inspection comfort with high contrast images, a negligible presence of stray light reflections, therefore a lower eye fatigue and no heat dissipation.

The colour temperature is 5400 K. It remains constant throughout the system longevity, independently of the number of hours the product is used. This consistency enables the users to maintain a stable quality standard over time.

*Working distance : BF = 50...150 mm / DF = 0...15 mm.
Lifetime : 20'000 hours.*

BF
Incident lighting

DF
Grazing lighting

BF + DF
Incident and grazing lighting

NOTES
