

Protection varnish and diluent.

Refer to the "Protections" chapter of the WATCH PARTS SERVICE catalogue, for protective adhesives and masking.

MSA	Contents	Kg
26.905	30 ml	0.045
26.906	1/2 litre	0.485
26.907	1 litre	0.745

Red saving varnish MASK'HOR use to hide certain parts of a piece during polishing, engraving, thinning, etc.

It is very resistant and guarantees an ideal protection.

Apply in uniform layers with a small paint brush and remove with diluent MSA26.908.

MSA	Contents	Kg
26.900	30 ml	0.050
26.901	1/2 litre	0.550
26.902	1 litre	1.100

Blue varnish PROTECT'HOR. It protects metallic parts such as watch cases, bracelets or any spare parts, during stocking or transport.

Apply in uniform layers with a small paint brush. It dries rapidly and assures optimal protection against scratches and scrapes of all types. To remove the varnish, stick an adhesive tape on one part of the object and all the varnish lifts.

MSA	Contents	Kg
26.908-030	30 ml	0.041
26.908	1 litre	0.940

Diluent for removing and thinning the red and blue varnishes.

- MASK'HOR : MSA26.905, MSA26.906 and MSA26.907

- PROTECT'HOR : MSA26.900, MSA26.901 and MSA26.902.

MSA	Contents	Kg
26.913-100	100 ml	0.128
26.913-1L	1 Kg	1.075
26.913-5L	5 Kg	5.250

White saving varnish KIWOMASK W 120, to be used to hide certain parts of a piece during polishing, engraving, thinning, etc.

Apply in uniform layers with a paintbrush and remove dry or with water.
